Fosomin landbrug

Application
Fosomin is used to supply the plant with available phosphorus (P) and nitrogen (N) during key growth stages. The product is designed for efficient foliar feeding, especially when low soil temperatures or unfavourable conditions reduce the availability of phosphorus in the soil.

The combination of nitrogen and phosphorus in Fosomin provides an immediate energy boost to the plant, stimulating root development, improving nutrient uptake, and enhancing overall growth and vitality. Fosomin can be used in a wide range of crops and is particularly beneficial early in the growing season or during periods of stress.

Compatibility
Fosomin is compatible with most crop protection products and liquid fertilisers.
If in doubt, perform a jar test in a small container before mixing.

Data
pH (concentrate): 6
Minimum storage temperature: 5 °C
Density: approx. 1.25 kg/L

Content		
Total nitrogen	(N)	3,9 %
Nitrate nitrogen	(N)	2,4 %
Ammonium nitrogen	(N)	1,5 %
Water-soluble phosphorus	(P)	0,9 %
Water-soluble potassium	(K)	2,7 %
Water-soluble magnesium	(Mg)	0,6 %
Water-soluble sulfur	(S)	0,4 %
Water-soluble boron	(B)	0,01 %
Water-soluble copper	(Cu)	0,001 %
Water-soluble iron	(Fe)	0,04 %
Water-soluble manganese	(Mn)	0,02 %
Water-soluble molybdenum	(Mo)	0,001 %
Water-soluble zinc	(Zn)	0,006 %

About us

At Interfiller, we work closely with our suppliers, partners and customers to create quality products with results. For almost 50 years, Interfiller A/S has built a solid company that today produces Danish products for both horticulture and agriculture.

At Interfiller, we take pride in in-depth knowledge about the products we sell and their practical application. Chelated micronutrients ensure reduced fertilizer consumption and enable agriculture and horticulture to increase yields and improve product quality while reducing environmental impact.

Through our products, production processes and services, we work together with our customers, employees and strategic partners to contribute to a global impact that helps secure our common future.
