JernSupport 54

Application
JernSupport is used to prevent or correct iron deficiency and to maintain an optimal balance between iron and manganese in the plant. Iron plays a vital role in chlorophyll formation and photosynthesis and is essential for healthy, green leaf development.

The product is particularly useful when excess manganese is present, as this can reduce the plant's ability to absorb iron. The recommended balance is 1–2 parts iron to 1 part manganese, which can best be determined through a plant sap analysis.

JernSupport provides chelated iron that is easily absorbed by the plant and remains available in the spray solution without forming insoluble compounds. It can be applied both to the soil and as a foliar fertiliser.

Compatibility
JernSupport is compatible with most crop protection products and liquid fertilisers.
If in doubt, perform a jar test in a small container before mixing.

Dosage
Maximum 2.0 L/ha per application.

Soil application:
Use Support Kip-R 0.2–0.4 L/ha (see product information Support Kip-R).

Foliar feeding:
Use Support Super-ADD 0.1 L per 100 L of water (see product information Support Super-ADD).

Data
pH (concentrate): 7
Minimum storage temperature: 5 °C
Density: approx. 1.20 kg/L

Content per liter

N	P	K	S	Mg	B	Mn	Cu	Zn	Mo	Fe
										54 g*

* The contents are chelated

About us

At Interfiller, we work closely with our suppliers, partners and customers to create quality products with results. For almost 50 years, Interfiller A/S has built a solid company that today produces Danish products for both horticulture and agriculture.

At Interfiller, we take pride in in-depth knowledge about the products we sell and their practical application. Chelated micronutrients ensure reduced fertilizer consumption and enable agriculture and horticulture to increase yields and improve product quality while reducing environmental impact.

Through our products, production processes and services, we work together with our customers, employees and strategic partners to contribute to a global impact that helps secure our common future.
